

**AMPTEC 620LK Bond Meter - Heavy Duty Kelvin Probes, "LM" pkg and Commercial pkgs**

620LK Explosive Safety Bonding Ohmmeter "LM" packages or "Commercial packages" described below includes the padded carrying (OP620LK-101) with shoulder strap (see photo), and see full Kelvin probe description below (*right column*).

**Option "620LK-101" Padded Carrying Case - The case houses the AMPTEC 620LK Bonding Milli-Ohmmeter with all the 4-Wire Kelvin heavy duty spring loaded probe leads "LM" pkg or "Commercial pkg."**(*right column*).

The AMPTEC 620LK uses the water-resistant ITT Cannon **Trident<sup>™</sup>** test lead front panel connector. Virtually all AMPTEC 620LK, 620UKB and AMPTEC 630 series test leads are compatible.

Option "630-403" is a 4-wire Kelvin Handheld Mini-Probe Lead set terminated with two handheld probes (2 **sharp pointed** gold plated spring loaded tips per probe -48" length).

Option "630-304" Gold plated 4-Wire Kelvin Banana Jack Test Lead Set -

**Ideal for the Calibration Lab** for precision Kelvin connections from AMPTEC 620LK Bond Milli-Ohmmeter to Lab Standard Resistors.

The AMPTEC 620LK is often supplied with the "**LM**" **heavy duty test probe package**. Includes 10' long (20' span) two single spear point heavy duty spring loaded Kelvin probes, plus a 5' long twin spear pointed heavy spring loaded Kelvin probes, plus a spare set of spiked tips (all tips can be swapped using a pair of pliers - see photo below OP630-405K) - The spear tips for the "LM" probe package are single sharp spear tips but rounded tips are available - contact the AMPTEC sales. It also includes the padded transit carrying case, U.S. N.I.S.T. Traceable Calibration Certificate and manual.

The AMPTEC 620LK bond meter is also supplied as a "**Commercial package**" with 4' long (8' span) handheld Kelvin Mini-probes for lighter duty or occasional use. The springs are lighter compression and the tips are slighter smaller diameter (OP630-403 photo on the left)

Option "**630-405K**" is for a replacement set of 10 foot long (*each probe wire set*) heavy duty spring loaded handheld Kelvin **spiked tip** probes (*total span 20 feet*).

Option "**630-405S**" is for a replacement set of the of **spear tipped** heavy duty spring loaded Kelvin Probes (10' long) *two tips per probe*.
